UEI: FHANH1DKEH15 | CAGE: 0MQN1 | Founded: 2008 | **Small Business**

## Core Competencies

- Manufacturer of a highly portable, lightweight modular wall panel system. Designed for workplace isolation and dust containment with rapid deployment, scalability, and repeated use in mind.
- ICRA 2.0 Class IV & V Containment Systems – Modular wall panels, doors, anterooms, ceiling panels, and accessories used widely in healthcare facilities, laboratories, and sensitive occupied spaces.
- Emergency Shelter & Privacy On Demand – Modular wall systems for: disaster relief housing partitions, emergency shelters, and support staff facilities.

## Differentiators

- Reusable floor to ceiling dust containment. Simple, modular, scalable system sets-up in minutes.
- Commercial-off-the-shelf (COTS) as well as customized systems
- Rapid Turnaround – Standard lead times of 1–3 weeks depending on project size.
- Over 15 years of experience serving healthcare, government, and commercial clients nationwide.

## Past Performance

- Butler VA Medical Center – Butler, PA | \$31,000 (2024-2025)
- USDA – West Lafayette, IN | \$5,000 (2022)
- Charlie Norwood VA Medical Center – Augusta, GA | \$37,000 (2020)
- Upstate Community Hospital – Syracuse, NY | \$41,000 (2020-2024)
- NJ Veterans Memorial Home – Edison, NJ | \$8,800 (2020-2022)
